

Site plan and visuals, estate „Vindi“

Each of the 4 houses in “Vindi” has a living space of 107 square meters as well as 1000 square meters of land approximately. Each unit can be used as a whole or can be separated into two smaller units thus enabling individual usage / letting for 2 parties or families.

The houses live up to all modern requirements : simple, light, practical, first-class quality, sustainable and multi-functional – while easily blending in with the untouched surroundings through their unobtrusive style.

The individual house is divided into 3 floors. The ground floor has a large living and dining area with a kitchen and entrance hall. A large terrace facing south and west (sunset). A staircase leads to the upper floor featuring a master bedroom with a terrace facing southwest and a bathroom on west side. Lower ground floor has 2 bedrooms, a bathroom, separate WC and heating/storage space with a large veranda facing south. A main entrance door (west or south) can transform the lower ground-floor as a separate apartment for rental income possibilities. A kitchen unit can easily be installed.
